DATE: FEBRUARY 2008

SUBJECT: FEATURE ARTICLE FOR GUCA MAGAZINE

We are currently in the process of developing the 2008 Utility Contractor of Georgia Magazine. If your company has any current projects or has recently finished any projects in Georgia, we would like to include these projects in our feature article for the magazine. The central subject for this article pertains to underground wastewater and sewer infrastructure but is not limited to this subject.

Listed below are some questions that will help you provide specific details for the project. Please answer any questions that are relevant to your project. If you have any questions, feel free to contact me at the GUCA office (404) 362-9995. The deadline to receive all information is **Friday, March 28, 2008**.

Note: This information does not have to be answered in the limited space provided; attach additional information to the correspondence you send back.

1. What is the current/recently completed project?
2. What is the time frame for this project?
3. Describe briefly the objective/purpose of this project?
4. Approximate value of your part of the project?
5. What challenges/concerns, if any, did you encounter during this project? What solution(s) were used to overcome these challenges?
6. Any other information not addressed that you can provide will be greatly appreciated. This can include, but is not limited to, design details, job site safety, completion details, equipment and materials used, GUCA suppliers used, and any additional information and/or quotes you find pertinent to the design, development and completion of this project.

Of course, we would like any photographs you can provide. All of this information can be e-mailed to my attention at michael@guca.com.

Your help is greatly appreciated!
