Ferguson Waterworks and Harry Warren, Inc. are pleased to announce a one day four hour maintenance and repair training class on Watts/Ames Backflow Prevention equipment. This course provides a practical, interactive classroom environment that allows the attendee to become knowledgeable of the Watts/Ames backflow prevention products and techniques as well as the resources and methods available to be in compliance with the EPA!

Backflow contamination can have hazardous or even fatal results. It is essential that backflow prevention programs be put in place and maintained on an ongoing basis. This course will provide an understanding of how far-reaching and critical backflow contamination problems are and to urge the development of the most effective backflow prevention programs possible.
