

INTRODUCTION

Think, discuss, plan, and act. Framing a clear direction for the training of your employees is your responsibility. In an environment of team players, it is generally the responsibility of more than one. We hope that our catalog of classes will enable you and your team to think about and build a viable safety and educational program. With this program, we hope to create motivation for you and your team, build value for your shareholders, build a company that continues to grow in skill, build support for the communities that you serve and build success for yourself. Reasons to increase training efforts include productivity improvement, capturing value of investments made in technology, adapting skills and behaviors to safety, retention of employees, development of leaders, preparation for successors, and driving organizational and cultural change. What is your best scenario? Train someone and have them leave or not train someone and have them stay?

Please check for updates on the GUCA Quarterly Safety Training Schedule and the individual class registrations listed on the GUCA website.</p>

CLASS TERMS AND CONDITIONS

1. Due to certification requirements, registration and payment must be received in advance for class participation. Class confirmation will only be sent to those who have paid. Your payment secures your seat in class.
2. The registration fee is fully refundable up to five (5) business days prior to the class. If you do not show up or fail to cancel your registration, the registration fee is non-refundable. Exception includes NPDES classes which require ten (10) business days prior to class to request a refund or move to another class.
3. Substitutes may be submitted by paid registrants if GUCA is notified in advance.
4. Any additions or walk-ins to class on day of instruction will be accepted if the class is not full and when accompanied by the registration form and when cash or online payment is used as payment for the class. Checks will not be accepted day of class.
5. All check payments must be received ten (10) days prior to class otherwise cash or credit card can be used for payment.
6. All online credit card users will be charged a non-refundable, non-negotiable, non-transferable online fee.
7. GUCA reserves the right to cancel classes due to low registration. You will be refunded only the class registration fee amount paid (credit card online fees are not refundable) due to GUCA class cancellation when a written refund request is received.
8. Some classes may include a book or observation fee. These fees must be paid when registering for those classes.

REGULATORY CERTIFICATION COMPLIANCE CLASSES

Competent Person Series (00)

Competent Person Excavation (CPE) Certification Course

8:00 a.m. - 5:00 p.m.

If your company performs excavation and trenching work, you must have an on-site Competent Person to oversee the work according to OSHA Standards, 29 CFR 1926.650 Sub Part P. GUCA has developed an excellent training course to prepare your employees for this critical task. This 8-hour GUCA training program is certified by the Georgia Construction Industry Licensing Board and meets partial requirements for the Utility Manager License and the Utility Foreman Certification. Attendees will learn excavation safety and will be tested prior to certification. This nationally recognized program uses GUCA certified instructors, a student reference manual, testing, and certification card good throughout Georgia.

Confined Space Entry (CSE) Certification Course**8:00 a.m. - 4:00 p.m.**

Are your employees in manholes, excavations, foundations, underground vaults, sewer pipelines, or any location where confined spaces can exist and cause hazards? If so, you are required by OSHA to understand the hazards involved in a confined space and train your employees on the hazards associated with confined space entry. This course is designed for owners, project managers, foremen, and safety personnel to understand the hazards associated with confined space entry. This GUCA training program covers the techniques, methods, and equipment used to ensure a safe entry. This one-day, 7-hour course, could save your life or the life of an employee. This 7-hour GUCA training program is certified by the Georgia Construction Industry Licensing Board and meets partial requirements for the Utility Manager License and the Utility Foreman Certification.

OSHA Series (200)

OSHA 10-hour Construction Course

8:00 a.m. - 3:00 p.m.

This two day, 10-hour course covers basic safety issues of the Construction Industry Standard 29 CFR 1926. It is designed for supervisors, project managers, foremen, safety professionals, and owners. This course certifies the participant, which fulfills the criteria for qualifying for "Focused Inspection." The course covers a wide variety of topics including, but not limited to: Recordkeeping, Heavy Equipment Safety, Electrical Safety, Fall Protection, Excavation and Trenching Safety, Personal Protective Equipment, Fire Prevention and Protection, Hand and Power Tool Safety, Hazard Communication, and OSHA's Focused Inspection Initiative.

FEES:	GUCA UC member	\$ 175.00 (Includes Book Fee)
	GUCA member	\$ 225.00 (Includes Book Fee)
	Non-member	\$ 275.00 (Includes Book Fee)

			October 20-21, 2022

OSHA 30-hour Construction Course

4-day Course 8 hours per day

This course will give you an overview of OSHA policies, procedures, and standards for the construction industry, as well as safety and health principles. Each section of the OSHA construction standard is covered with special emphasis placed on more hazardous areas, while using OSHA standards as a guide. The 4-day (8 hours per day) course covers a variety of topics such as: Introduction to OSHA, Hazard Violation Search, Workshop, Health Hazards in construction, Materials Handling, Silica and Lead in construction, Damage Prevention, Recordkeeping, Signs Signals and Barricades, Electrical Safety, Fall Protection/Scaffolding, Excavation and Trenching Safety, Personal Protective Equipment, Welding, Cranes, Hazardous Communication, Traffic Control/Struck-by, Safety Programs/Safety Culture; Underground Construction, Respiratory Protection, Blasting, and Confined Space Entry.

FEES:	GUCA UC Member	\$ 400.00 (Includes Book Fee)
	GUCA Member	\$ 450.00 (Includes Book Fee)
	Non-member	\$ 500.00 (Includes Book Fee)

DATES:	July 5-8, 2022		

Competent Person in OSHA Silica Standard Certification Course

8:00 a.m. - 12:00 p.m.

This 4-hour course provides a comprehensive review of OSHA's new silica standard and training on the health effects of silica exposure and practical steps companies can take to protect workers from the hazards of silica exposure. This course is designed for supervisors, project managers, foreman, safety professionals, owners, and decision makers on the jobsite. Job tasks addressed in this course include those who come in contact with elevated exposure to silica dust. Students will learn how to properly implement assessment methods for measuring worker exposure and the medical surveillance requirements of the standards. Participants will be given information to ascertain the effectiveness of their company's silica compliance program and the information on the requirements and responsibilities of a silica 'competent person' on construction site.

Reasonable Suspicion Testing Training for Supervisors - Motor Carrier

3:00 p.m. - 5:00 p.m.

DOT requires that persons designated to determine reasonable suspicion receive at least "60 minutes of training on alcohol misuse and 60 minutes of training on controlled substance use." This 2-hour program will help give your supervisors or HR personnel the confidence they need to address a wide range of difficult situations that they are likely to encounter. Your supervisors will understand; what kinds of observations they need to make; common symptoms of alcohol misuse and controlled substance use; how to document their observations; how to approach suspected drivers; who must conduct the training; and how to respect drivers' privacy.

FEES: **GUCA UC member** **\$ 25.00**

DATES: OPEN

TO SCHEDULE A CLASS CONTACT THE GUCA OFFICE. CLASSES ARE TAUGHT ON AN INDIVIDUAL BASIS.

SafeLandUSA/OffShore Basic Orientation Safety Awareness Course**8:00 a.m. - 5:00 p.m.**

The SafeLandUSE and OffShore Basic Orientation 8-hour safety awareness course is designed to take the place of multiple operator orientations and to give each student a general idea of life and safety issues in the oil and gas industry, upstream, downstream, onshore or offshore. This one-day program meets API RP 75 & API RP T-1 requirements and provides a basic understanding at an awareness level of certain general safety information that an employee should know before entering a company facility and while performing their assigned work duties. Over 25 of the leading oil and gas operators accept this orientation as it meets their requirements. Upon successful completion of course, each student is issued a picture ID with a unique barcode. The student information is then stored in an online database and will follow the student the rest of their life. This orientation has become the standard program for the industry and certifies a student at awareness level.

Locating and Marking Underground Pipeline Facilities Course**8:00 a.m. - 5:00 p.m.**

This one day Locating and Marking Underground Facilities Course is designed for beginners or advanced users alike. Often times it becomes necessary to locate and verify underground facilities while on jobsites. Whether you are locating for the facility owner as a contractor or locating to verify if it is safe to dig, at some point each excavator will have a need to do so. Why hire a private locator when you could gain the knowledge and competency here. This 8-hour course will discuss basic theory of locating through Conductive and Inductive methods. There will be hands on training to ensure that each participant leaves with the knowledge to apply this practice in the field. This course is an Industrial Training Service product which allows you to receive Operator Qualification which is needed to locate Natural Gas facilities. This course comes with IACET CEU's.

PLEASE BRING LOCATING EQUIPMENT TO CLASS FOR THE HANDS ON TRAINING (IF AVAILABLE).

NPDES Level 1B Course and Exam

8:00 a.m. - 5:00 p.m.

GUCA also offers the two-day Level 1B Advanced Fundamental Course and Exam for regulatory enforcement inspectors and those non-regulatory enforcement inspectors performing regulatory inspections. This course covers the role of Inspector to help ensure site compliance and what types of enforcement action will be taken against those who fail to comply with the NPDES Permits, Erosion and Sediment Control in Georgia. **Individuals that attend this course must present the instructor with government issued photo ID.**

FEES:	GUCA UC member	\$ 200.00
	GUCA member	\$ 250.00
	Non-member	\$ 300.00

CODE:	NDS-531-SAT	LOCATION:	South Atlanta	
DATES:	February 15-16, 2022	May 24-25, 2022	August 23-24, 2022	November 15-16, 2022

NPDES Level 1B Recertification Course

8:00 a.m. -12:00 p.m.

This 4-hour course is for individuals needing to re-certify their NPDES Level 1B (Red) card which expires every 3 years. There will not be an exam for this re-certification course. **Individuals that attend approved course(s) must present the instructor with government issued photo ID and current certification card or proof of valid certification (from GSWCC website).** Individuals with multiple certifications must complete four hours of continuing education for each certification they wish to renew. Individuals can begin taking continuing education courses 1 year before their certification expires. Those individuals with 4 or more hours will receive a new certification card in the mail approximately two weeks before their certification expires. Those individuals that fail to obtain at least 4 hours of continuing education prior to their expiration date will have to retake the course and pass the exam before certification will be reinstated.

FEES:	GUCA UC member	\$ 75.00
	GUCA member	\$ 85.00

Natural Gas Safety Course Prerequisite to Qualification 8:00 a.m. - 5:00 p.m.

The Natural Gas Prerequisite for Qualification is a 3 Day informational course. This course is designed to instill the basic knowledge of the Natural Gas Distribution Industry. This class is for employees that have never been qualified to perform a covered task or someone wanting to add to their knowledge. This will jump start the process to Operator Qualification. We use Industrial Training Service material which is a Nationally Recognized approved provider and offers IACET CEU's. The entire process of Natural Gas Extraction to End User Distribution and Customer Consumption is discussed thoroughly to give an understanding of the industry. With the explosive makeup of this substance, we will discuss the Properties of Natural Gas to help employees make informed safety decisions when faced with certain Abnormal Operating Conditions.
